- Flush Molded-In Deck Hinges
- PVC Foam Core Construction Throughout—No Wood
- Sand Color Hull and Deck

*For years anglers had hoped that somebody would build a sensible, economical light tackle skiff that had all the important features of the expensive custom skiffs, but none of the frills. Introducing the Hewes Bayfisher™ 16'. You can count on this new Hewes 16' for real value and performance. Like shallow draft and a comfortable ride. No wood PVC cored construction gives the Bayfisher superior resistance to the elements plus the economy of good performance with lower horsepower engines.*

- Full Foam Floatation Throughout with Non-Absorptive Nitrogen-filled Closed Cell Urethane Foam
- Teleflex Mechanical Steering
- Console with Locking Door and Lighted Switching Panel
- Automatic and Manual Bilge Pump
- Under Gunwale Rod Racks
- Famous Hewes Hull Design with "Super-Dry" Lapstrake Reinforced Topsides
- Navigation Lights
- 30 Gallon Fuel Tank
