

# HEWES REDFISHER 19

## THE BEST OF BOTH WORLDS. The new Hewes

Redfisher 19 is the first saltwater skiff that offers the performance and fish-friendly features freshwater anglers demand. The forward cooler/live well option and large deck area make it an excellent skiff for the serious salt or freshwater live bait fisherman. The proven Hewes design provides a smooth dry ride. The Redfisher 19's new, innovative V-Pad Hull and Laminar Lift Transom make for a nimble, faster planing hull. At home in both fresh and salt water, the Redfisher 19 gives you the best of both worlds.
